Santa Clara**
The Center of What's Possible

NOTICE

NOTICE OF AVAILABILITY
for Public Review of an
Initial Study and Proposed Mitigated Negative Declaration
Distribution Date: June 21, 2019

As authorized by the City of Santa Clara as Lead Agency, the City hereby provides a **30-day public review period** for an Initial Study and Proposed Mitigated Negative Declaration prepared pursuant to the California Environmental Quality Act (CEQA) for the following project:

Project Title: **Sanitary Sewer Condition Assessment Repairs**
Files: CE 18-19-08, CE 18-19-09
Location: Multiple locations within the City of Santa Clara
Applicant: City of Santa Clara, Public Works Department
Owner: City of Santa Clara, Public Works Department
Request: Review of Initial Study and Proposed **Mitigated Negative Declaration** for repairs to the City's sanitary sewer system at six locations to address defects identified in condition assessments

INITIAL STUDY DETERMINATION

An Initial Study was completed by the City of Santa Clara in accordance with the California Environmental Quality Act (CEQA), and is available for review in the project file in the Public Works Engineering office in City Hall at 1500 Warburton Avenue, the Central Library at 2635 Homestead Road in the City of Santa Clara, and online in electronic format at www.santaclaraca.gov/CEQA. The Initial Study analyzes the effects of six sanitary sewer repair projects identified as necessary by the City's ongoing condition assessment program. All projects would incorporate Avoidance and Minimization Measures (AMMs) to reduce community impacts and potential impacts on water quality and special-status plants and wildlife. Two of the proposed repairs would occur on or adjacent to sites listed for hazardous materials contamination; the project AMMs also include measures to protect the public, workers, and the environment from hazardous materials exposure. Based upon analysis in the Initial Study, the **projects would not have a significant effect on the environment** with the AMMs and additional mitigation measures identified through the environmental review process incorporated..

COMMENTS

Comments may be filed with the City on the Initial Study and Proposed Mitigated Negative Declaration within the review period **beginning Friday, June 21, 2019 and ending Monday, July 22, 2019**, pursuant to Section 15073 of the CEQA Guidelines. Responses received in writing on or before the date of review or verbally at the time of the review of this project will be considered along with the proposed Mitigated Negative Declaration.
